The feedback was that the County was supposed to get support from CDPHE and help get information out. The state then bowed out saying EPA is the lead and that they have not got information from EPA to give to the public nor has EPA provided information to be public. They're not angry just giving feedback.

Will we have data by noon that will give something to share at a 1:30 meeting?

Question to both of you is what can we share tomorrow afternoon about the data?

*There's a woman at the San Juan County health dept who offered space if you want it. Will get her number from Rich.

Also checking on Shaun's flight in tomorrow. We think it's 9:30. Will shoot you a line once travel folks back in.

Also Joan's cell is: **Personal Phone/Ex. 6** if you need it. I believe she's here tomorrow and we should share whatever proposal you have for his day in Durango with her in the morning. Good luck. Let me know what I can do.
